(Note) In the consolidated business forecasts and the dividend forecast for the fiscal year ending February 28, 2022, there is a significant impact of the increase in procurement costs and the increase in the number of shares due to the exercise of the share subscription rights issued on July 14, 2020. For the purpose of calculating the forecast, we assume non-operating expenses of 160 million yen and an increase in the total number of shares outstanding by 1,218,800 due to the exercise of the share subscription rights. Please note that this calculation is based on assumptions at the time this report was prepared.

◆ Consolidated Business Forecasts by Segment

(Percentages indicate year-on-year changes.)

Full year	Net sales		Operating income	
	Millions of yen	%	Millions of yen	%
MT business	3,480	23.1	720	110.0
HT business	1,430	14.5	260	36.6
GU business	—	—	(350)	—
Other corporate expenses	—	—	(20)	—

(Note) Effective from the fiscal year ending February 28, 2022, we will integrate the current HT business and the current crowdsourcing business to disclose as the HT business.

This business forecast is based on the assumption that the economic environment is on an extension of the current situation, as it is impossible to predict the full-fledged recovery period for the decline in business performance and the stagnation in purchasing activities of client companies that are closely related to overseas due to COVID-19 pandemic and its secondary phenomenon.

As described in "Financial Results for the Nine-month Period (17th Fiscal Period) of the Fiscal Year Ending February 28, 2021 _P.19 (Cash Cow of the MT Business)" on January 14, 2021, we have continued to reduce selling, general and administrative expenses to an appropriate level in light of the current order intake (20-40% increase in MT sales).

In addition, in the fiscal year ending February 28, 2022, office cancellation and decrease in depreciation of property, plant and equipment are expected, and the MT business is expected to earn around 720 million yen on an operating income basis.

For the GU business, we have assumed an operating loss of 350 million yen in the calculation of the consolidated business forecasts. This is the amount that is calculated by converting the operating loss of 168 million yen that occurred about six months after the commencement of the GU business in the previous fiscal year, to an amount through the entire year, and not set as a business forecast. This disclosure (Consolidated Financial Results for the Fiscal Year Ended February 28, 2021) was revised and disclosed on May 10, 2021 after being disclosed on April 14, 2021. Accordingly, the policy of the GU business from the fiscal year ended February 28, 2022 has been changed. For details, please refer to the "Notice Regarding Amendments to Accounting Procedures for the GU Business and Related Documents for the Fiscal Year Ended February 28, 2021 Due to the Amendments" disclosed on May 7, 2021.

1. Overview of Results of Operation and Financial Position

(1) Overview of Results of Operation and Financial Position

1) Overview of Results of Operation for the Fiscal Year under Review

During the fiscal year under review, sales and income in the HT business decreased significantly due to the impact of COVID-19 pandemic, but the MT business continued to perform strongly. As a result, net sales and operating income of the existing business (MT business, HT business, and crowdsourcing business) excluding the new GU business that was launched in the fiscal year under review hit record highs. For the fiscal year under review, our group posted net sales of 4,075,885 thousand yen (up 4.2% year on year), operating income of 300,419 thousand yen (down 33.1% year on year; up 4.5% year on year to 469,017 thousand yen excluding the GU business), ordinary income of 275,573 thousand yen (down 38.2% year on year), and profit attributable to owners of parent of 140,463 thousand yen (down 54.4% year on year).

The reportable segment "GU business" has been added in the current fiscal year. This is the business segment of Shin Corporate Mission (Global Ubiquitous) to "liberate humanity from its location, time, language, and physical constraints."

The performance of each business segment is as follows:

1) MT business

As for the MT business, sales were 2,826,988 thousand yen (up 32.5% year on year), and segment income was 342,780 thousand yen (up 45.1% year on year).

2) HT business

As for the HT business, sales were 911,857 thousand yen (down 35.5% year on year), and segment income was 167,379 thousand yen (down 49.0% year on year).

3) Crowdsourcing business

As for the Crowdsourcing business, sales were 336,989 thousand yen (down 7.4% year on year), and segment income was 22,905 thousand yen (segment loss of 45,034 thousand yen in the previous fiscal year).

4) GU business

As for the GU business, sales were 50 thousand yen and segment loss was 168,598 thousand yen.

2) Overview of Financial Position for the Fiscal Year under Review

(Assets)

Total assets at the end of the fiscal year under review increased by 2,412,931 thousand yen from the end of the previous fiscal year to 6,166,837 thousand yen.

Current assets increased by 1,209,948 thousand yen from the end of the previous fiscal year to 2,854,899 thousand yen. This was mainly due to an increase of 1,285,338 thousand yen in cash and deposits.

Non-current assets increased by 1,202,982 thousand yen from the end of the previous fiscal year to 3,311,938 thousand yen. This was mainly due to an increase of 60,116 thousand yen in investment securities in the MT business, an increase of 604,216 thousand yen in investment securities in the GU business, an increase of 326,633 thousand yen in software, and an increase of 135,626 thousand yen in software in progress.

(Liabilities)

Liabilities at the end of the fiscal year under review increased by 1,126,761 thousand yen from the end of the previous fiscal year to 3,376,594 thousand yen. This was mainly due to an increase of 606,897 thousand yen in long-term loans payable, an increase of 176,000 thousand yen in bonds, and an increase of 175,154 thousand yen in current portion of long-term loans payable.

(Net assets)

Net assets at the end of the fiscal year under review increased by 1,286,170 thousand yen from the end of the previous fiscal year to 2,790,243 thousand yen. This was mainly due to a decrease of 1,000 thousand yen in capital surplus due to the acquisition of additional shares of subsidiaries, and an increase of 140,463 thousand yen in retained earnings due to the recording of 140,463 thousand yen in profit attributable to owners of parent, despite an increase of 529,945 thousand yen in capital stock and capital surplus due to the issuance of shares through a third-party allotment, and the issuance of share subscription rights, etc.

3) Overview of Cash Flows for the Fiscal Year under Review

Net cash provided by operating activities was 1,444,963 thousand yen, net cash used in investing activities was 2,012,776 thousand yen, and net cash provided by financing activities was 1,866,436 thousand yen. As a result, cash and cash equivalents

(hereinafter "cash") at the end of the fiscal year under review increased by 1,298,886 thousand yen from the end of the previous fiscal year to 2,288,014 thousand yen.

(Cash flows from operating activities)

Net cash provided by operating activities was 1,351,742 thousand yen. Cash inflow was mainly attributable to income before income taxes of 234,476 thousand yen, depreciation and amortization of 591,764 thousand yen, and an increase in advances received of 120,695 thousand yen. Cash outflow was mainly attributable to income taxes paid of 52,457 thousand yen, an increase in notes and accounts receivable-trade of 25,243 thousand yen, and interest paid of 6,446 thousand yen.

(Cash flows from investing activities)

Net cash used in investing activities was 1,919,555 thousand yen. Cash outflow included purchase of intangible assets of 949,947 thousand yen, purchase of investment securities of 664,383 thousand yen, and purchase of investments in subsidiaries and associates of 201,100 thousand yen.

(Cash flows from financing activities)

Net cash provided by financing activities was 1,866,436 thousand yen. Cash inflow was mainly attributable to proceeds from long-term debt of 1,080,000 thousand yen and proceeds from issuance of shares of 1,021,383 thousand yen. Cash outflow was mainly attributable to repayments of long-term debt of 297,949 thousand yen.

(2) Consolidated Business Forecasts

Our two management themes for the future are:

1) Service-in/UX Brush-up of the GU Business

Spur the development and service-in of the GU business, including YouConnect, Travel DX, and project OASIS. For Travel DX and YouConnect, which have already been developed as planned, we will start service-in and perform agile brush-up of UX.

2) Expansion of cash cow in the MT business

We will expand the cash cow of the MT business, such as the T-400 and T-3MT, by selecting and concentrating management resources.

We will allocate resources (streamline selling, general and administrative expenses, and optimize marketing activities) in response to the continuous growth of 20-40% in orders received, and in the fiscal year ending February 28, 2022, we will establish a cash cow business with an operating income of about 700 million yen per year.

The impact of COVID-19 pandemic on our business results is as follows.

In the fourth quarter in the MT business, some exhibitions were cancelled due to the reinstatement of the state of emergency declaration in January. However, there was no significant decline as a whole, and the MT business continued to recover moderately.

The impact of COVID-19 pandemic, which we forecast for the fiscal year ending March 31, 2020, has declined significantly, particularly in the number of new leads acquired compared to the previous fiscal year. This was mainly due to the high ratio of enterprises that relied on exhibitions to create leads.

Currently, more than 1,000 companies newly introduced our service per year, and the total number of companies that have introduced our service has exceeded 5,000.

Even among existing customers, the amount of contracts per company has increased because they have experienced value and the number of translated words has continued to mark record highs.

In the fiscal year ended February 28, 2021, the HT business, which undertakes manual tasks, was significantly affected by COVID-19 pandemic. However, sales of the HT business as a whole have been on a gradual recovery trend after bottoming out in August of the previous fiscal year, and although sales in the first quarter of the fiscal year ending February 28, 2022 are expected to remain unchanged from the same period of the previous fiscal year, sales after that period are expected to exceed those in the same period of the previous fiscal year. In the HT business, the translation field is expected to recover strongly, while uncertainty remains in the field of training and interpretation.

The forecasts here are based on actual results and conditions actually affected by COVID-19 pandemic as of April 14, 2021, and do not incorporate any predictions, such as when the medical, political, or economic problems caused by COVID-19 pandemic will subside.

2. Basic Approach to Selection of Accounting Standards

In light of the comparability of consolidated financial statements between periods and between companies, our group intends to continue to prepare consolidated financial statements under Japanese GAAP.

However, our policy is to appropriately consider the application of the International Financial Reporting Standards (IFRS) as necessary in light of various circumstances and business description in Japan and overseas.

(Notes on Going Concern Assumptions)

Not applicable.

(Changes in Scope of Consolidation or Scope of Equity Method Application)

During the fiscal year under review, Event DX Corporation, Travel DX Corporation, MATRIX Corporation, and Signans Inc. have been included in the scope of consolidation due to the establishment of these companies.

On the other hand, anydooR USA Inc. has been excluded from the scope of consolidation during the fiscal year under review due to its liquidation.

In addition, p2p.inc, which was a newly contributed entity, has been included in the scope of application of the equity method during the fiscal year under review.

(Change of Presentation Methods)

(Consolidated Balance Sheets)

Investments in securities, which had been included in "Other" under "Investments and other assets" until the previous fiscal year, is presented separately from the current fiscal year due to its materiality. To reflect this change in presentation, the consolidated financial statements for the previous fiscal year have been reclassified.

As a result, 106,318 thousand yen that had been presented under "Other" under "Investments and other assets" in the previous fiscal year's consolidated balance sheet has been reclassified as 540 thousand yen in "Investment securities" and 105,778 thousand yen in "Other."

(Consolidated Statements of Income)

Retirement benefit expenses, which had been included in "Other" under "Selling, general and administrative expenses" until the previous fiscal year, are posted separately from the fiscal year under review in order to improve clarity of presentation. To reflect this change in presentation, the consolidated financial statements for the previous fiscal year have been reclassified.

As a result, 1,020,094 thousand yen that had been presented under "Other" under "Selling, general and administrative expenses" in the previous fiscal year's consolidated statement of income has been reclassified as 10,077 thousand yen of "Retirement benefit expenses" and 1,010,016 thousand yen of "Other."

(Segment Information)

1. Overview of Reportable Segments

The target segments of the Company are components of the Company for which separate financial information is available and which are regularly reviewed by the Board of Directors in order to determine the allocation of management resources and evaluate business performance. Our business includes the machine translation business and the global ubiquitous business as core business, and the translation outsourcing business and the crowdsourcing business as peripheral business.

(1) MT business

The Machine Translation business provides machine-translation services using artificial intelligence (AI) based on its corporate mission of "liberate Japan from linguistic impairment."

In addition, we have set the mission of "releasing humanity from the shackles of manual labor" as the second chapter. We provide robotic process automation (RPA) that utilizes the knowledge gained from translation.

(2) HT business

The Human Translation business provides outsourced services, such as traditional human translation, interpretation, and language training.

(3) Crowdsourcing business

The crowdsourcing business provides a crowdsourcing website on which global jobs such as multilingual translation and field surveys can be requested.

(4) GU business

The GU business provides various services to realize "Global Ubiquitous" that refers to integration of cutting-edge technologies such as AI, AR (Augmented Reality), VR (Virtual Reality), 5G/6G/G7 (High-speed, Multiple Connections), 4K/8K/12K (Super-Resolution), video distribution solutions, robotics, and HA (Human Augmentation) to enable people around the world to interact, work, and enjoy their lives "with anyone anytime, anywhere without linguistic barriers."

2. Method of calculating net sales, income (loss), assets and other items by reportable segment

The accounting methods used for the reportable segments are based on the accounting policies adopted for the preparation of the consolidated financial statements.

Segment income is based on operating income. Intersegment sales and transfers are based on prevailing market prices.

3. Changes in reportable segments

During the fiscal year under review, Event DX Corporation, Travel DX Corporation, and MATRIX Corporation have been established and included in the scope of consolidation. As a result, the "GU business" has been added as a new reportable segment.

This change in reportable segments has no impact on segment information for the previous fiscal year.

(Significant Subsequent Events)

(Transition to a holding company structure through a company split)

At the meeting of the Board of Directors held on January 14, 2021, in order to transition to a holding company structure, we resolved to establish a split preparation company and transit to a holding company structure through a company split, and established a split preparation company (Rozetta MT Corporation) on March 1, 2021.

At the meeting of the Board of Directors held on April 14, 2021, in order to transition to a holding company structure on September 1, 2021 (planned), we resolved to conclude an absorption-type split agreement with Rozetta MT Corp. and Signans Inc., which are our wholly owned subsidiaries, with Rozetta Corp. as the split company, Rozetta MT Corp., and Signans Inc. as the successor company, and concluded the agreement on the same date.

With regard to the transition to a holding company structure, we plan to implement the relevant proposals on the condition that they are approved at our annual general shareholders meeting to be held on May 25, 2021.

(1) Purpose of transition to a holding company structure

Since our founding, we have developed AI automatic translation under our corporate mission of "liberate Japan from linguistic impairment." At present, we have expanded our concept and aim to realize "Global Ubiquitous" that refers to integration of cutting-edge technologies such as AI, AR (Augmented Reality), VR (Virtual Reality), 5G/6G/G7 (High-speed, Multiple Connections), 4K/8K/12K (Super-Resolution), video distribution solutions, robotics, and HA (Human Augmentation) to enable people around the world to interact, work, and enjoy their lives "with anyone anytime, anywhere without linguistic barriers."

In order for our group to further improve corporate value and achieve sustainable growth in the future, we believe that it is necessary to reconstruct our group structure so that we can further improve management efficiency and respond flexibly to changes in the market environment. By transition to a holding company structure, we will strengthen the planning and drafting functions of Group management strategies. At the same time, we will establish a flexible organizational structure to respond flexibly to the market environment and expand our business through M&A. As a result, we believe that we can improve corporate value and achieve sustainable growth, and therefore we have decided to transition to a holding company structure.

(2) Overview of the Succeeding Company

Transition to a holding company structure: September 1, 2021 (planned)

(Changes in Segments)

Previously, our group had four reportable segments: the MT business, the HT business, the Crowdsourcing business, and the GU business. However, from the following fiscal year, we have decided to change the reportable segments to the MT business, the HT business, and the GU business. This is because there is no longer a clear difference between crowdsourcing and HT at present, and in light of size and growth potential, there is no longer a point to separate.

The information on net sales, income (loss), assets, liabilities and other items by reportable segment for the fiscal year under review if the new segmentation is applied is as follows.
